

Homework Survey

“Homework is a strategy that provides students with opportunities to deepen their understanding of content and gain proficiency with skills. It also gives pupils a chance to practise and review what they have learned.”

Robert Marzano, Educational Researcher

This session, we are reviewing our homework approach in school with pupils and staff, and are also eager to seek your views regarding this to help us in deciding the best way forward.

We will use the views gathered from pupils, staff and parents to help us in revising our Homework Policy. The policy will communicate the purpose of homework, the amount of homework likely to be assigned at particular stages of the school, the types of homework that pupils will experience and how parents can support pupils in this process.

It is our aim to ensure that pupils and parents understand the purpose of the homework being given, and that homework tasks allow pupils to practise and apply skills they have been developing in the classroom allowing them to gain a deeper understanding.

This survey has been created by the school and the Education Subcommittee of the Parent Council. If the survey makes you reflect on any individual events or circumstances that you would like to share or discuss, please do this either through your year group rep or email the Parent Council email at Foxcovertpc@hotmail.co.uk

Thank you in advance for sharing your views. Please respond to the survey by **Friday 4th December**.
