**Any further comments .....**

- It felt like there was a lot to get through and I think my daughter found it quite overwhelming and saw it as a chore which made it a battle at times. Not what I think homework should be. The younger children are not able to manage their own work. It was worse for the pilot, but maybe it might work longer term. I just felt it was constantly hanging over us for 3 weeks. Weekly you get it all done and then forget about it until the next week.
- Too much homework for a 6 year old. Feel parents should be given tools to help our kids learn through play etc and not structured homework.
- I personally felt it was too much homework.
- I find it easier to fit in when it is given with a weekly deadline. Would also be helpful if teachers asked for it to be handed in as it can end up done but in her bag for days!
